Eurovent welcomes Filtech Swiss as its newest member

Brussels, Rancate, 17 May 2022. Eurovent welcomes Filtech, a Swiss manufacturer of ventilation filters. With Filtech becoming the newest Eurovent Corresponding Member, the association grows by one of the leading manufacturers in the ventilation sector.

Founded in 1971, Filtech has production facilities in Switzerland, France and the Netherlands which manufactures and markets high quality air filters that protect people and processes. Their products are used in a wide range of applications and industries such as HVAC, gas turbines, human and process protection, hospitals, clean rooms and domestic appliances. Filtech's application range includes high quality FINE, HEPA and ULPA filters which undergo testing on efficiency and pressure drop in high-tech laboratories.

Luc Taeymans, Filtech Swiss Director, confirms their commitment: "Filtech Swiss is honoured to be part of Eurovent as a Corresponding Member. Our core purpose is 'Air that must be as pure as possible' to protect people and their machines. By joining Eurovent as a Corresponding Member, this will be a huge opportunity to be part of a group that produces leading guidelines for HVAC professionals dealing with ventilation systems. This will aid in providing a clear picture on the necessity of having specific filters for improving and maintaining good indoor air quality."

Also your organisation can become a member of Eurovent, Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. All relevant information is available at www.eurovent.eu. In case of any questions, contact the Eurovent Team via secretariat@eurovent.eu

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
