Rikard Lindbom elected Vice-Chairman of Eurovent PG-ERC

Brussels, 11 May 2023. The Eurovent Product Group 'Energy Recovery Components' has elected Rikard Lindbom (RECUTECH) as the group's new Vice-Chairman. The election took place during the groups online meeting on 26 April 2023.

Rikard Lindbom, Product Area Director Energy Recovery at RECUTECH has extensive experience in the energy sector and has been involved in the industry's sales, production technology and development of calculation software for 15 years. Rikard will be supporting the group's Chairman Thomas Richter, Head of Product Management at Hoval.

The new Vice-Chairman, Rikard Lindbom, stated: "I would like to thank the group participants for their trust in my work and for electing me as their Vice-Chairman. Over the years, the Eurovent Product Group 'Energy Recovery Components' has continuously grown. In fact, with all major manufacturers participating, it has become one of the leading group for this product segment worldwide."

Lindbom continues by highlighting: "This evolution also reflects the ever-increasing relevance of heating and cooling recovery technologies. These products are crucial to ensuring an energy efficient HVAC equipment operation. They also enable us to provide a healthy indoor climate in the most efficient way. Together with our Chairman Thomas Richter, the Eurovent staff and all our manufacturers, I am looking forward to further shaping this market segment and providing valuable input for the HVAC market and legislators."

The Eurovent Product Group 'Energy Recovery Components' (PG-ERC) covers rotary heat exchangers, run-around coils and heat pipes. The group is engaged with European and national legislation regarding the European air conditioning industry. It is also concerned with developing EN, ISO and Eurovent standardisation.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
